

Instructions: 1) X= test needs to be completed; 2) X\* test to be done date of surgery; 3) For BMP or Na/K, normal results good for 3 months; except for diuretic use-normal results good for 2 weeks; all ESRD patients require a Na/K on date of surgery either as iSTAT or BMP 4) CBC- normal results good for 3 months; 5) ECG-normal or unchanged ECG good for 2 years

DISEASE PROCESS:	CBC	BMP	GLUCOSE	PT-INR	PT-INR/PTT	ECG
Hypertension		X				X
CAD, arrhythmia, CHF, PVD	X	X				X
CVA, TIA						X
Diabetes Mellitus		X	X*			X
COPD, Pulm Fibrosis/Embolism	X					
Obstructive Sleep Apnea						X
ESRD, CRF, Dialysis	X	X*				X
Hepatic Disease-Cirrhosis	X	X		X		
Anemia, Bone Marrow Disease, HIV	X					
Chemotherapy in last 6 months	X					
Major Trauma w/in 3 months	X					
Morbid Obesity (BMI>40)		X				X
Malnutrition (BMI <17)	X	X				
ETOH Abuse	X					
Pacemaker/AICD-all patients**	**last pacemaker interrogation and magnet function					

MEDICATIONS:	CBC	BMP	GLUCOSE	PT-INR	PT-INR/PTT	ECG
Diuretic or ACEI/ARB		X				
Coumadin/Warfarin	X			X*		
Oral Steroids (w/in 7 days)			X*			
Oral Steroids (chronic, >2 wks)		X				
Insulin/Random BS >250**	** order A1C					
Digoxin or Lithium**	** order Digoxin/Lithium level					

PROCEDURE-SPECIFIED:	CBC	BMP	GLUCOSE	PT-INR	PT-INR/PTT	ECG
Endoscopy**	** may substitute POC H/H for CBC or POC Na/K/BG for BMP					
Procedures requiring T&S	X					
TURP, Prostatectomy	X	X				
Partial/Complete Nephrectomy	X	X				
Hysteroscopy	X					
Posted for hospital admission	X					
Total Joints/Spine					X	
All Patients age > 65						X
Females 12-49 yo (except post hysterectomy, BTL, or menopause) **	** order pregnancy test w/in 10 days of surgery or DOS					

**TYPE & SCREEN GUIDELINES: T&S TO BE DONE WITHIN 14 DAYS OF SURGERY**

Thoracic	All cases, Pectus surgery
ENT	Neck dissection, Laryngectomy, Glossectomy, Thyroidectomy
General	Gastrectomy, Mastectomy, Whipple, Splenectomy, Nissen, Planned Open
GYN	Missed AB, Hysterectomy, Myomectomy, Planned Open Laparotomy
GYN/ONC	Hysterectomy, Myomectomy, Planned Open Laparotomy - Case Specific
Neurosurgery	Craniotomy, Lumbar/Thoracic Spinal Fusion, Anterior/Posterior Cervical Fusion >2 levels
Orthopedic	Joint Replacements, Lumbar/Thoracic Spinal Fusion, Above/Below Knee Amputation
Plastics	Major Flap Procedures
Urology	Nephrectomy (Complete/Partial), Prostatectomy (Open/Robotic), Cystectomy
Vascular	All Cases Except Dialysis Access (AVF/graft), Above/Below Knee Amputation
